

wrightway2MT INDUSTRIAL BIN TIPPER MULTI-PURPOSE CRADLE:

The specially designed Multi-Purpose Cradle of the wrightway2MT® INDUSTRIAL bin tipper is able to facilitate the lift and empty of 1100 Litre skip bins, 660 Litre 4-wheeled bins, and a range of standard wheelie bins including 80, 120, 140, 240 litre bins.

TO EMPTY STANDARD WHEELIE BIN or BINS:

Same relocation & emptying procedure as detailed for the 660 or 1100 Litre bins.

No need to change anything. Just wheel the bin or bins onto the cradle, lift and empty.

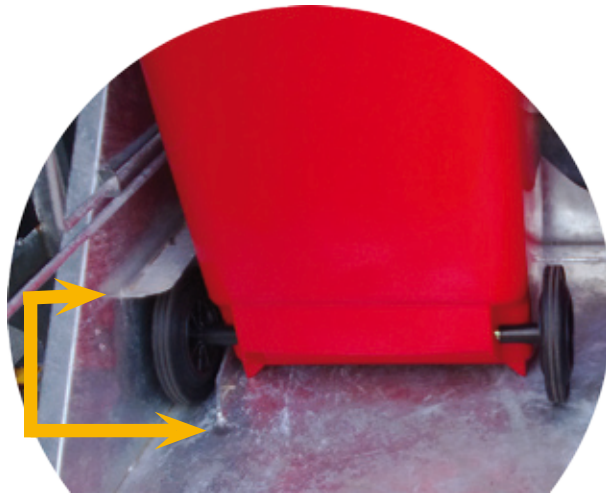

The wheel guides on both left and right sides of the cradle will hold 2 bins of the same or differing sized standard wheelie bins without any manual handling to adapt the cradle: the cradle also allows for a single wheelie bin to be emptied if required.

NOTE:

Ensure wheelie bin/s have their outside wheel/s **WITHIN** the wheel guides on the base & sides of the cradle (one wheel per bin inside the guides at the extreme left, and/or extreme right).

Outside Wheel of both bins held in place by wheel guides.

Left wheel guides
